

Project Design Phase Solution Architecture

Date	22 October 2022
Team ID	PNT2022TMID13865
Project Name	News Tracker Application
Maximum Marks	4 Marks

Solution Architecture:

Solution architecture is a complex process, with many sub-processes that bridge the gap between business problems and technology solutions. Its goals are to:

- Find the best tech solution to solve existing business problems.
- Describe the structure, characteristics, behavior, and other aspects of the software to project stakeholders.
- Define features, development phases, and solution requirements to the project.
- Provide specifications according to which the solution is defined, managed, and delivered to the customers.
