### Data Flow Diagrams:

A Data Flow Diagram (DFD) is a traditional visual representation of the information flows within a system. A neat and clear DFD can depict the right amount of the system requirement graphically. It shows how data enters and leaves the system, what changes the information, and where data is stored. **Example:** [\(Simplified\)](#)

1. User configures credentials for the Watson Natural Language Understanding service and starts the app.
2. User selects data file to process and load.
3. Apache Tika extracts text from the data file.
4. Extracted text is passed to Watson NLU for enrichment.
5. Enriched data is visualized in the UI using the DS.js library.

## Stories

| User Type           | Functional Requirement (Epic) | User Story Number | User Story / Task   | Acceptance criteria   | Priority | Release  |
|---------------------|-------------------------------|-------------------|---|---|----------|----------|
| Customer (Web User) |                               | USN-1             | Enter the web site on the browser   | I must be able to login through browser   | Medium   | Sprint-1 |
|                     | User Registration             | USN-2             | As a user, I can register for the application by entering my email, password and confirming my password and phone number. | I can access my account   | High     | Sprint-2 |
|                     | User Confirmation             | USN-3             | As a user, I will receive conformation email once I have registered for the application.                                  | I can receive conformation email &  | High     | Sprint-4 |
|                     |                               | USN-4             | As a user, I can register for the application through Gmail   | click confirm<br>I can register & access the dashboard with Gmail account Login | Medium   | Sprint-3 |
|                     | User Login                    | USN-5             | As a user, I can log into the application by entering email & password  | I can login to the official page  | High     | Sprint-2 |
|                     | User's Selection choice       | USN-6             | Day to day news, interested categories news of my selection and other updating contents                                   | I can see all the news which I wanted   | High     | Sprint-3 |
